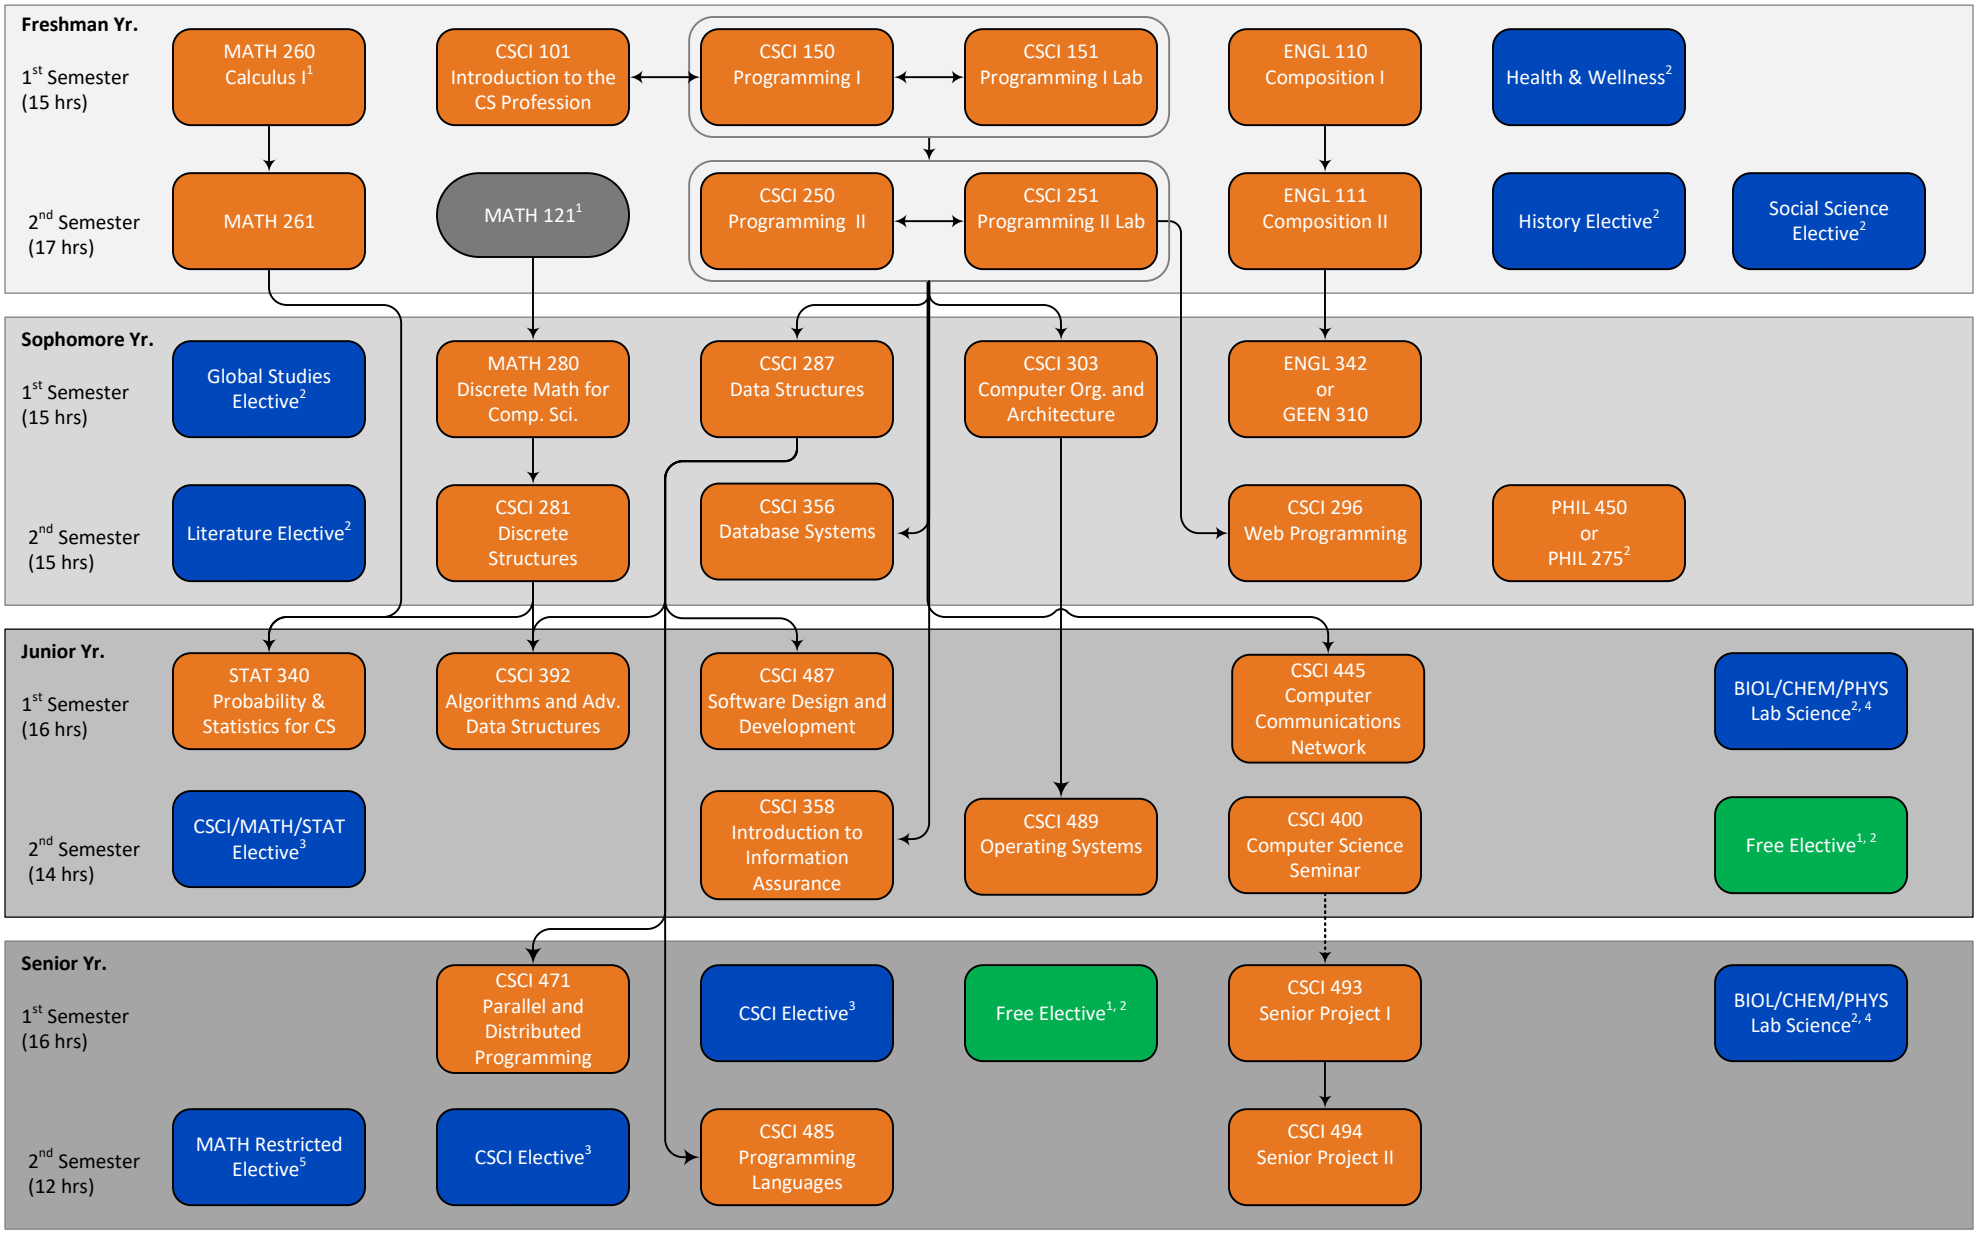
Computer Science Curriculum

Proposed Fall 2018



[1] Dependent on math placement, students may be asked to complete MATH 120 and MATH 121, or MATH 150 before taking MATH 260. These additional Math courses will replace one or both Free Electives.
[2] A grade of D- or higher is considered satisfactory for completion of these courses. All other courses require a grade of C- or higher. (If MATH 120, MATH 121, or MATH 150 are taken in place of Free Electives, a C- or higher must be achieved.)
[3] Must be 300 level or above.
[4] Must be intended for science and engineering majors. Select from PHYS 105, PHYS 106, PHYS 112, PHYS 113, CHEM 151/153, CHEM 152/154, BIOL 120, BIOL 121, or a higher level science course for which these are prerequisites. Please confirm with your advisor that the science classes you are taking are appropriate.
[5] Must be selected from listing of Restricted Math Electives (see advisor).
